

## **TOOL // Recognition and Understanding of Spoken French**

### **What is it used for?**

The tool allows the teacher to quickly assess and have a record of students' understanding of key French phrases and words.

### **How do you use it?**

A quiz is designed in Google Forms that reflects key phrases that students should be able to understand. The teacher says the phrase and by tapping the appropriate response the student shows their understanding, i.e. Teacher says, "Nous allons." The students pick the matching English phrase. The results are assessed by the teacher and he/she makes note of student performance and those statements students had difficulty with and require further practice. Results can be emailed to the students.

# 20160921 - Quiz - Part A

Listen carefully to the phrases, and pick the matching English translation.
