

TOOL // Star and Step Feedback Form

What is the tool?

Star and Step Feedback Form linked to learning goals.

What is it used for?

The strip identifies the learning goal that is the focus of feedback.

The star reflects student strengths, and the stair shows next steps.

At the bottom of the form, the student may indicate how they feel they are progressing toward their learning goal using a five-point pictorial scale, or the teacher may do so.

How do you use it?

A file is created with the form, two to a page. Using student-friendly language, the learning goal, which is the focus of the feedback, can easily be typed across the top before copying the form.

The forms are attached to student work and reflect areas where the student is doing well on and identify a next step. The face that best reflects the work is circled.

How do you adapt it to other subjects and topics?

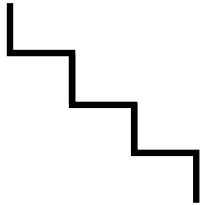

This can be used with any subject and any grade.

Learning Goal:

Name: _____

I will

Learning Goal:

Name: _____

I will
