

Grade 1 Measurement Assessment Check-bridic Term_____

Mathematics Overall: estimate, measure, and describe length, area, using non standard units of the same size;

- compare, describe, and order objects, using attributes measured in non-standard units

Achievement Chart Level of Understanding

1 Limited	2 Some	3 Considerable	4 Thorough / High Degree
------------------	---------------	-----------------------	---------------------------------

Students	use of non-standard units of same size to measure	estimate, measure, record lengths, heights, distance	construct tools for measuring	Compare 2 -3 objects use by attributes measurement words	Compare and order objects	Meter as a benchmark	Describe relationships size and number of units needed	Anecdotal notes
