TOOL // Goal Setting Writing Chart

What is it used for?
The chart provides a forum for students to set personal goals for their writing, and to indicate how well they are progressing toward these goals.

How do you use it?
The teachers and students co-create goals for improving their writing. These steps are recorded on a Goal Chart. Each goal on the chart has a large brightly coloured square next to it.

This chart is referenced during a student - teacher conference. The student agrees on a goal to focus on for their next piece of writing. The student then places a sticky with their name on it on the coloured square beside the chosen goal.

Charts are developed at the beginning of each learning unit so the goals reflect a variety of elements.
