

TOOL // Assessment For Learning Entry Task

What is it used for?

This task allows the teacher time to get to know a little about the students and if necessary be more prepared to complete the lessons.

How do you use it?

When the students enter the room the writing task is on their desk for them to complete. Explain you want them to think about why their teacher is not here today and give reasons for their choice. Grade 1 students could draw a picture. As students work you can quickly get to know them as you circulate and jot names in the appropriate observation boxes. This will prepare you ahead of time to be aware of students that will need extra support.

My Teacher isn't in class today

I think my teacher is... because...

**OUR TEACHER
IS MISSING...**
